

Ecommerce Shopping Cart Plugins

Thank you for downloading the PayOut plugin for Prestashop. Along with this integration guide, your download should also have included your plugin in a .zip (or compressed) format. In order to install it, kindly follow the steps and instructions outlined below, and feel free to contact the PayOut support team at support@payout. should you require any assistance.

INSTALLATION INSTRUCTIONS

Install a module from the administration panel

Step1. Login to your PrestaShop admin area.

Step2. Under **Improve**, click **Modules & Services**. Click the **Upload a Module** button.

Step3. Click on **select file** to open the dialogue box letting you search your computer, select the **payout.zip** file. The system will display the **Module installed!** window. You can now click the **configure** button, or proceed to step 4.

If receive an error message, it is possible that the PHP extension php_zip is not installed on your server. You will need to install it or have it installed by your web host. If the installation is successful, the module will then appear in your list of modules under the Module and Services section in Payment Gateways.

Step4. Locate the new PayOut module under the **Installed modules** tab in the **Modules & Services** window. You might have to scroll down; you can also use the list's search engine, which should give you a dynamically updated list of matching module names.

Step5. Click the **configure** button on the PayOut plugin.

SETTINGS

Live mode ☒ YES ☐ NO
Use this module in live mode

Enable Sanbox ☒ YES ☐ NO
Enable Sandbox Mode

Client Id
Client Id
